1. Executive Parties & Land Anchor Sovereign Agreement

LISTEN SECTION

This Memorandum of Understanding (MOU) establishes a bilateral land co-development, infrastructure, and commercial energy off-take partnership between **Lwandile Engineering Projects** and **JLM Trading (Pty) Ltd (Carmello Hot Chocolate)**.

Lead Applicant & System Architect

Lwandile Engineering Projects

Represented by: Sipho Wiseman Khuzwayo (Lead Architect & Visionary)

Mandate: Lead Applicant for JET EOI Window 4, managing microgrid design (30 kWp Solar PV + 60 kWh BESS), 120-tag SCADA hub, bio-energy system integration (70m³ digester / 15kW CHP), livestock & hydroponics microclimate nurseries and overall technical governance.

Land Co-Developer & Primary Energy Off-Taker

JLM Trading (Pty) Ltd (Carmello)

Represented by: Nozuko Thabile Dywili (Founder & MD) & Martin-Luther Haynes (Co-Founder, Barbados)

Mandate: Co-developer of the Carmello Hot Chocolate manufacturing plant, primary consumer of solar power & CHP thermal energy, and local community enterprise anchor.

SITE ALLOCATION CONFIRMATION — STAND NO. 253 WITFONTEIN, SIYABUSWA

Landowner Commitment: Mr. Aphane, lawful owner of agricultural land Stand No. 253 Witfontein, Siyabuswa, Mpumalanga, formally confirms the allocation of **2.0 Hectare (20,000 m²)** from his 10-hectare property for the establishment of the Agrivoltaics Hub and Carmello Hot Chocolate production facility (secured via dedicated Land LOI).

2. Operational Roles, Microgrid & Commercial Off-Take Matrix

LISTEN SECTION

Consortium Partner	Designated EOI Role	Infused Baseline Operational Scope (R 3,734,500.00 MVP)
Lwandile Engineering Projects	Lead Applicant & Technical System Architect	Orchestrates primary microgrid installation (30 kWp Solar PV / 60 kWh LFP BESS), 120-tag SCADA hub telemetry, 15 kW Biogas CHP integration, borehole-01 water autonomy, 20,000m² fenced boundary, and overall JET EOI Window 4 compilation.
JLM Trading (Pty) Ltd (Carmello)	Land Co-Developer & Commercial Off-Taker	Co-develops 2.0 Ha site at Stand 253 Witfontein, operates the Carmello Hot Chocolate processing plant, absorbs daytime solar power & night-time CHP thermal energy, and drives youth/women employment initiatives.

3. Financial Baseline & Phased Scaling Roadmap

LISTEN SECTION

3.1 Locked MVP Baseline Financials (R 3,734,500.00)

- **Subtotal CAPEX:** ZAR 3,395,000.00 covering 30 kWp PV, 60 kWh BESS, 70m³ Biodigester, 15 kW CHP, 4,800 Broilers, 160 Swine Weaners, fence & borehole.
- **10% Mandatory Contingency:** ZAR 339,500.00.
- **Total EOI Baseline Budget: ZAR 3,734,500.00**.

3.2 Energy & Thermal Off-Take Framework

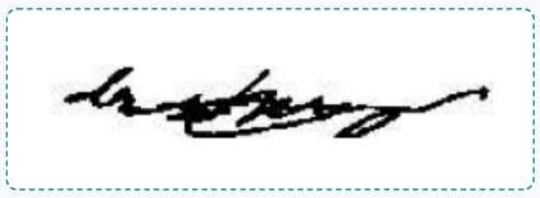

- JLM Trading absorbs process heating & daytime electricity for hot chocolate manufacturing.
- Surplus power redistributed to surrounding poultry/swine units and water purification pumps.
- **Phase 2 Commercial Expansion:** Scalable path from 30 kWp MVP up to full 2.5 MW / 10 MWh Agrivoltaic microgrid.

4. Executive Consortium Signatures & Digital Seals
